

Blumenerde

TerraBrill Blumenerde is a potting substrate for outside as well as inside use, suitable for bedding and balcony plants in boxes and flower buckets, for green plants and also for potting of indoor plants.

TerraBrill Blumenerde offers the following advantages:

- high water retention and buffer capacity for the pH-value and the nutrients by the frozen black peat
- improved air capacity and drainage ability by the part of white sphagnum peat
- with all the nutrients necessary for the growing of plants (main and trace nutrients)

Composition:
25 % white peat
75 % black peat
1500 g fertilizer NPK/m³
100 g trace elements/m³
+ wetting agent

Structure: medium

Chemical values:
(available nutrient content)

pH-value (H ₂ O):	5,5 - 6,5
Salt content:	1,2 - 1,7 mg/l
Nitrogen, N:	130 - 290 mg/l
Phosphorus, P ₂ O ₅ :	140 - 340 mg/l
Potassium, K ₂ O:	170 - 390 mg/l

Packing: bags in 5 l, 10 l, 20 l, 45 l and 70 l (EN)
The packing is marked with an EAN-code and the "Grüner Punkt".
